Dear Senator Specter,

The Immigration Reform is a very important issue that has to take into account the situation of millions of immigrants already in the United States who are members of very hard working families , and who are giving a tremendous contribution to the US economy. They are not terrorists , and many of them are out of status due to a broken immigration law system . Therefore, I request you to strongly oppose discussion and reject approval of bill H.R. 4437 (Sensenbrenner's bill **Border Protection, Antiterrorism, and Illegal Immigration Control Act of 2005**) in the Senate, a bill that will treat immigrants as criminals, among other negative things, and I strongly urge you -as my representative- to support, and vote for bill S.1033 (bipartisan bill McCain-Kennedy **Secure America and Orderly Immigration Act**) and make everything in your power to passage this bill S.1033 which represents a truthful and integral Immigration Reform that will make America stronger and safer.

Thank you in advance for your time, attention, and action on to this matter.

Sincerely,
